

Trade-In Offer

For a limited time, SCLLogic is offering up to **\$250 trade-in credit for each Palm device** toward the purchase of a Motorola MC55. Offer not valid for resellers.

Call 888.700.7027 or email info@sclogic.com

We will gladly discuss your upgrade options with you and help you determine the best models to meet your requirements.

We will provide you with information regarding any current SPT1800 service contracts you may carry with us and after upgrading, we will send you an updated service contract that includes your new equipment serial numbers.

2010 Mobile Computing Recommendation

One of the things that really sets SCLLogic apart from other tracking software companies is our mobile computing expertise. SCLLogic is committed to ongoing research and integration of its software with the latest mobile computing devices so we can offer you the best hardware and peripherals to complement your SCLIntra™ tracking system.

SCLLogic is one of only a handful of Motorola Premier Business Partners (PBP) in the United States. To earn Motorola PBP status, a company must maintain a high level of product knowledge, hold multiple certifications and achieve significant mobile computing hardware sales milestones. SCLLogic is pleased to recommend the Motorola MC55 model for use with SCLIntra.

Premium Rugged (WWAN): MC55 Enterprise Digital Assistant (EDA)

The MC55 brings a new level of flexibility, functionality and rugged design to pocket-sized mobile devices. The smallest and lightest Motorola rugged EDA, the MC55 packs the power of a cell phone, mobile computer, barcode scanner, high resolution color camera and pager — all into a single device.

Designed to meet mobile worker, business application and IT requirements, this easy to use and easy to carry business-class device offers true consumer styling as well as enterprise manageability, security and scalability.

Features

- **Sleek yet rugged pocket-sized lightweight form factor:** Built for year round use in nearly any environment, with IP54 sealing and the ability to survive a 4 ft./1.2 m drop to concrete
- **Powerful microprocessor designed for mobility: XScale PXA270 @ 520 MHz:** Desktop-like performance with lower power requirements
- **Microsoft's latest operating system: Windows Mobile 6.1 Classic:** Increased interoperability with existing enterprise infrastructure; enhanced security features; more flexible development platform; improved mobile messaging collaboration
- **802.11a/b/g WLAN connectivity with flexible VoIP (VoWLAN) support:** Cost-effective voice and data connectivity in the office
- **WPAN: Bluetooth® v2.0, Enhanced Data Rate (EDR):** Wireless connectivity to modems and printers; v2.0 provides additional throughput, improved security and additional profiles for expanded connectivity to more device types
- **High quality speakerphone, microphone and transducer:** Superior voice quality and performance
- **Multiple voice modes: handset and speakerphone** Flexibility to use the right mode at the right time
- **Multi-mode data capture: 1D/2D bar code scanning plus 2 Megapixel auto-focus flash-enabled optional color camera with decode capability.** Ability to capture high quality pictures, documents and signatures as well as 1D and 2D barcodes improves workforce automation; increases productivity and reduces data errors
- **3.5 inch color high definition QVGA display (320 x 240):** Easy to view in virtually any lighting

About SCLLogic, LLC
